PLAN

How to Use This Planner

1. **Fill in Move at a Glance**
   Write down your dates, both addresses and your mover's details. It's the page you'll check most.

2. **Follow the timeline**
   Work through one week's checklist at a time. If you have less than 8 weeks, start at the matching page and catch up on anything earlier that still matters.

3. **Give every room a code**
   On the Room Key, each room gets a letter code and a color (K = Kitchen, B1 = Bedroom 1 and so on). Print the matching box labels and room signs.

4. **Number and log every box**
   Write the room code and a box number on each label (K-07) and note what's inside on the Box Inventory. On moving day, tick boxes off as they arrive.

5. **Tape room signs to doors**
   Put a sign on each door at the new home before the truck arrives. Movers match the label color to the door, so boxes end up in the right room.

6. **Keep the admin in one place**
   Budget, quotes, address changes, utilities and contacts all live in the Admin section, so you won't have to search for a phone number on moving day.

Two ways to use it

Type on a screen

Open the PDF in Adobe Acrobat Reader (free), Preview, Xodo or a browser. Click any line to type and any box to tick it. Save often. In GoodNotes or Notability, import the PDF and write with your stylus.

Print and write

Print at 'Actual size' / 100% on US Letter or A4 (use the matching file). Print only the pages you need, and print extra box labels and inventory pages as you go.

TIP Keep this planner, your keys and your documents with you on moving day, not on the truck.

Ask every mover

- ☐ Are you licensed and insured? (US: USDOT number)
- ☐ Is this quote binding or an estimate?
- ☐ What's not included? Stairs, long carry, fuel?
- ☐ How do you handle damage claims?
- ☐ Can I see the contract before I pay a deposit?
- ☐ Do you subcontract to another company?

TIP Get quotes in writing. Be wary of a quote far below the others, or of anyone asking for a large cash deposit.
