PLAN

Quick Start

Thank you for your purchase! Here's how to get the most from your planner.

Your files

The-Calm-Move-Moving-Planner-US-Letter.pdf for US / Canada paper, and The-Calm-Move-Moving-Planner-A4.pdf for A4 paper (UK, EU, Australia and most other countries). Both have the same 51 pages.

To type into it

Open the PDF in Adobe Acrobat Reader (free), Apple Preview, Xodo or Microsoft Edge. Click a line to type and click a box to tick it. Save often. Some phone and browser previewers can't fill forms, so if typing doesn't work, open the file in Acrobat Reader.

To write by hand on a tablet

Import the PDF into GoodNotes, Notability or Noteshelf. The contents page and the 'Contents' link on every page are clickable, so you can jump around.

To print

Choose 'Actual size' or 100% scale (not 'Fit'). Print only the pages you need, and print extra copies of the room packing checklist, box inventory and box labels as you go. Labels and signs look best in color; everything else prints well in black and white.

Box labels tip

Print labels on sticker paper (full-sheet label paper), or on plain paper and attach them with clear packing tape. Put one on top and one on the side of each box.

Terms of use

For personal use only. Please don't share, resell or redistribute the files. No physical item will be shipped.

HELP Questions or a problem with your files? Message me through Etsy and I'll help. If the planner made your move calmer, a review means the world to a small shop.
