How to Make a Perfect Print

1

Print

Print on white cardstock (65–110 lb) at “Actual size”. Type names into the name / age / year boxes first. Printing on A4 paper? Use the A4 files.

2

Paint

Use washable kids’ paint (tempera or finger paint). Brush a thin, even coat onto the hand or foot. Don’t dip – thick paint smudges.

3

Press

Line up with the faint corner guides. Press down, gently push each finger / toe, then lift straight up. The guides are hidden by paint.

4

Finish

Let it dry 15–30 minutes. Add faces with a marker, googly eyes, or the cut & glue face pieces included in this guide.

Little Tips

- Babies: do footprints while they’re sleepy or feeding – one foot at a time.
- Practice once on scrap paper first. Keep baby wipes close by!
- Prints look best when the hand is relaxed and fingers are spread.
- Ghosts on the night sky: use white paint. Coloring version: color the sky first.
- Every page fits an 8.5×11 frame, or an 11×14 frame with a mat.
